7.1.1 Institution has initiated the Gender Audit and measures for the promotion of gender equity during the last five years.

Life begins from the womb and it is the responsibility of any human being to respect Women who play multiple roles without expectations, thereby forming the backbone of the society.

Dr.Lankapalli Bullayya College of Engineering strives to play a proactive role in achieving this by empowering women professionally through conducting activities which bring awareness towards existing opportunities in the fields of Science as well as in the rewarding fields of Information and Communication Technology through celebrating International Day of Women and Girls in Science, as well as International Girls in ICT Day.

The College celebrates the contributions of Women by conducting various events annually such as International Womens Day Celebrations. This is done with the objective of acknowledging the important role that women play in our society as well as ensuring that the society also acknowledges this and ensures that a supportive environment is provided for their wellbeing and development. On this occasion, the College conducts various awareness activities both within the College as well as at various locations in the city to sensitize the youth, menfolk and society in general regarding importance of Women Empowerment and its benefits to society.

The College celebrates National Girl Child Day in order to bring awareness among the public regarding the inequities faced by Girl child as well as creating healthy and safe environment for their empowerment. On this day activities promoting awareness about rights of Girl child as well as importance of female education, health and nutrition are conducted.

The College also conducts activities which safeguards the rights of women at the workplace. For this purpose programmes are conducted by Industry experts focusing on the need for Gender Sensitization, as well as current mechanisms available in industry which protect the rights of women at the work place.

The College provides awareness to the Girl students to utilize opportunities in fields traditionally pursued by men such as Armed Forces. The College has in the past conducted webinars by Women working in Armed Forces regarding current change in the work environment which encourages more women to actively pursue careers in Armed forces.

The College provides a platform for successful Women occupying responsible positions in both the Government and Private Sector through events conducted in association with CII IWN. These events aim to boost the morale of the women employees, provide awareness regarding their rights, responsibilities and encourage them to pursue their dreams boldly and fearlessly without fear or stigma. In this direction the college has conducted Events focusing on Gender equity both at the Workplace, home and society in general are conducted on a regular basis in association with organizations such as CII IWN. Since these Girls students are prospective employees of Multi-National Companies, the College has conducted event related to Western ideas on Gender Diversity to acclimatize them to prepare for the future.

Report on Gender Audit

(from 2018-2019 AY to 2022-2023)

Dr Lankapalli Bullayya College of Engineering for Women was established in the Academic year 2010-2011. It has been converted to Dr Lankapalli Bullayya College of Engineering in the Academic Year 2020-2021.

Since from the inception the college has been striving hard to impart the Quality Education and became the cause of success of the Girl Students, who hails from the humble background.

Gender Audit has been conducted for the Last Five Academic Years. The details of the Gender Audit has been indicated in the following Tables.

Based on the data of Gender Audit, it has been found that there is a reasonable improvement in the success of the Girl Students in terms of Results, Placements, Higher Education, which ultimately empowered their lives.

Students admitted to the college during last Five years (First Year Admissions including EWS)

Admitted Year	Total	Male	% of Male	Female	% of Female

Girls in Information and Communication Technology Day (27-04-2023)

Theme of the Event:

Girls in Information and Communication Technology (ICT) Day, also known as International Girls in ICT Day, is an annual observance that aims to encourage and empower girls and young women to consider careers in the field of information and communication technology. This day, celebrated on the fourth Thursday of April each year, was established by the International Telecommunication Union (ITU), a specialized United Nations agency.

The purpose of Girls in ICT Day is to bridge the gender gap in the ICT sector by inspiring girls to pursue education and careers in technology-related fields. It seeks to break stereotypes and societal barriers that often discourage girls from entering STEM (science, technology, engineering, and mathematics) fields, particularly ICT.

On this day, various activities and events are organized globally, such as seminars, workshops, coding classes, mentoring sessions, and career fairs. These initiatives aim to provide girls with exposure to technology, introduce them to successful women in ICT, and showcase the diverse opportunities available in this field.

By highlighting the achievements of women in technology and encouraging girls to explore ICT-related careers, Girls in ICT Day contributes to creating a more inclusive and diverse workforce in the tech industry.

On this day, a guest lecture is given by Smt.G.Rojamani, Head of the Department, Department of Computer Science, Dr. Lankapalli Bullayya College on the topic named "Digital Skills for Life". It was organized by Women Empowerment Cell in coordination with Electrical and Electronics Engineering.

About the Institute:

Dr. Lankapalli Bullayya College of Engineering encourages and promotes education and keeps its focus on empowerment and their personality development with which they can face the challenges of modern world. The broad objective of the institution is to provide the right opportunities to students for learning the higher skills in new technologies and building their extraordinary careers in industry and research organizations.

Acclaimed by the student community as an outstanding women engineering college in the smart city Visakhapatnam, Andhra Pradesh, Dr. Lankapalli Bullayya College of Engineering (for women), was established by The Society for Collegiate Education in 2010 with the objective to produce technologists and scientists who would engage in research, design and development to help building the nation. Our Campus is ideally located in the heart of the city on 10 acre land.

The curriculum places emphasis on basic topics in engineering sciences, design and experimental methods. The College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

Theme of the Event:

CII IWN, Andhra Pradesh in association with Dr Lankapalli Bullayya College of Engineering conducted a session on 'Future of Workplaces: Gender Perspectives for the staff of Dr Lankapalli Bullayya College of Engineering, Visakhapatnam, on 18 March 2023 from 3.30pm in Block 7 Seminar Hall. The purpose of training was to acquaint all the staff with the gender perspectives at the workplaces, to share knowledge on POSH act and to increase awareness about harassment at the workplace in order to build a culture of mutual respect and equal opportunity.Prof D Deepak Chowdary, Principal of the college delivered the welcome address. Dr T Vasudha, Chairwoman, CII IWN Andhra Pradesh, set the theme for the session in her special address.The Resource Person, Dr Usha Pantula, Executive Council Member of CII IWN Andhra Pradesh and a Corporate Trainer, began her session by explaining the genesis of the POSH Act. She went on to explain the meaning of 'Sexual Harassment' with the help of cases, laws and examples. She also spoke about the impact of such behavior upon women and the need for educating staff at the work place.

She dealt with the procedure for filing a complaint to the Internal Committee by an aggrieved woman. She shared tips on relevant points that must be mentioned in order to have a strong complaint. She also covered the aspect of societal perception of the POSH law with the help of several practical examples. The session emphasized on the responsibility of the organization in handling POSH cases and a zero-tolerance policy towards sexual harassment and unlawful discrimination against any staff, students or any other person.

Faculty members actively participated in the interactive session. Dr V Radha Devi, Executive Council Member of CII IWN Andhra Pradesh and Head, Dept of Basic Sciences and Humanities, Dr Lankapalli Bullayya College of Engineering, thanked Dr Usha Pantula for delivering such an informative and interactive session.

About the Institute:

Dr.Lankapalli Bullayya College of Engineering encourages and promotes education and keeps its focus on empowerment and their personality development with which they can face the challenges of modern world. The broad objective of the institution is to provide the right opportunities to students for learning the higher skills in new technologies and building their extraordinary careers in industry and research organizations.

Acclaimed by the student community as an outstanding women engineering college in the smart city Visakhapatnam, Andhra Pradesh, Dr.Lankapalli Bullayya College of Engineering (for women), was established by The Society for Collegiate Education in 2010 with the objective to produce technologists and scientists who would engage in research, design and development to help building the nation. Our Campus is ideally located in the heart of the city on 10 acre land.

The curriculum places emphasis on basic topics in engineering sciences, design and experimental methods. The College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

About of the Event:

Dr. Lankapalli Bullayya College of Engineering organized a Special Lecture on Women Empowerment on the occasion of Women's Day celebrations, 2023. The lecture was delivered by the Chief Guest, ACP Dr. G. Prem Kajal. Through her lecture she emphasized that it is necessary for young girls and women to break the bounds and shackles laid down by society. Fear is restrictive and hence it is imperative that women should rise above narrow mindedness and prove their abilities.Speaking on the occasion, Prof. D Madhavi, H O D of Computer Science Engineering said that it is very necessary for young girls and women to create an identity for themselves and motivated the students to be financially independent. She also stressed that girls should also develop their sense of self-esteem.

International Day of Women and Girl in Science
(10-02-2023)

Theme of the Event:

The International Day of Women and Girls in Science is observed on February 11th each year. It was established by the United Nations to recognize the critical role women and girls play in science and technology, and to promote gender equality in these fields.

The day aims to:

- Highlight Women's Achievements: It celebrates the accomplishments of women and girls in science and emphasizes their contributions to various scientific fields.

- Promote Gender Equality: It raises awareness about the gender gap in STEM (Science, Technology, Engineering, and Mathematics) fields and advocates for equal opportunities for women and girls to pursue careers in science.

- Encourage Girls in Science: It inspires and encourages young girls to pursue their interests in science, technology, engineering, and math, fostering their engagement and involvement in these fields.

On this day a competition of debate is conducted by Women Empowerment Cell in coordination with Department of Electrical and Electronics Engineering. The topic is Women's Right Movement in Anti-discrimination Activities and the students from all the departments actively participated.

National Girl Child Day
(24-01-2023)

Theme of the Event:

National Girl Child Day is celebrated in India on January 24th every year. It aims to raise awareness about the inequalities faced by girls, promote their rights, and highlight the importance of education, health care, and nutrition for girls. The day also emphasizes the need to eradicate discrimination and violence against girls.

The Indian government initiated National Girl Child Day in 2008 as part of its efforts to address gender inequality and empower girls. Various events, seminars, workshops, and campaigns are organized across the country on this day to advocate for the rights of girls and to create a more conducive environment for their growth and development.

On this day a competition of elocution is conducted by Women Empowerment Cell in coordination with Department of Computer Science and Engineering. The topic is Gender and Social Movements and the students from all the departments actively participated.

Theme of the Event:

International Women's Day was celebrated on 8th March 2022 in the campus with great fervor and joy with all the women teaching and non-teaching staff participating enthusiastically in it. Secretary and Correspondent of the college, **Dr. G. Madhu Kumar**, Special Invitee, initiated the festive mood with his humorous

Cdr Priya Khurana, Logistics Officer Indian Naval Ship Sahyadri Eastern Naval Command was the Chief Guest. Secretary and Correspondent of the college, Dr.G. Madhu Kumar and is special invitee at the event.

Having enrolled as Members of the Computer Society of India, Computer Science Engineering students participated in large numbers.

The women faculty and first year girl students have attended the programme with great enthusiasm. Collectively they have taken an oath to break the gender bias and to create the gender equal world. Together they proclaimed that they can forge Women's equality with united spirit.

Song and dance performances marked the day with participation from all departments. Many fun events and games were conducted for the ladies. Foot tapping music, poetry recital, bingo, lucky dip, and dance, interspersed with games added to the festive mood. Women's day should not be restricted to just one day of festivity in a year. Being born as a woman is by itself a celebration for life.

International Day of Women and Girl in Science
(11-02-2022)

Theme of the Event:

The International Day of Women and Girls in Science is observed on February 11th each year. It was established by the United Nations to recognize the critical role women and girls play in science and technology, and to promote gender equality in these fields.

The day aims to:

- Highlight Women's Achievements: It celebrates the accomplishments of women and girls in science and emphasizes their contributions to various scientific fields.

- Promote Gender Equality: It raises awareness about the gender gap in STEM (Science, Technology, Engineering, and Mathematics) fields and advocates for equal opportunities for women and girls to pursue careers in science.

- Encourage Girls in Science: It inspires and encourages young girls to pursue their interests in science, technology, engineering, and math, fostering their engagement and involvement in these fields.

On this day a competition of debate is conducted by Women Empowerment Cell in coordination with Department of Electronics and Communication Engineering. The topic is Women in Politics and the students from all the departments actively participated.

National Girl Child Day
(24-01-2022)

Theme of the Event:

National Girl Child Day is celebrated in India on January 24th every year. It aims to raise awareness about the inequalities faced by girls, promote their rights, and highlight the importance of education, health care, and nutrition for girls. The day also emphasizes the need to eradicate discrimination and violence against girls.

The Indian government initiated National Girl Child Day in 2008 as part of its efforts to address gender inequality and empower girls. Various events, seminars, workshops, and campaigns are organized across the country on this day to advocate for the rights of girls and to create a more conducive environment for their growth and development.

Competitions are conducted Country wide in order to raise awareness about the importance of educating the Girl child as well as taking all the necessary precautions and care to help her flourish into the strong independent women making invaluable contributions towards National Development.

On this day a competition of elocution is conducted by Women Empowerment Cell in coordination with Department of Civil Engineering. The topic is Education of girl child and the students from all the departments actively participated.

International Day of Rural Women
(18-10-2021)

Theme of the Event:

The International Day of Rural Women is observed annually on October 15th. It was established by the United Nations to recognize the critical role that rural women play in supporting their communities, economies, and households worldwide. This day aims to honor their contributions, highlight their challenges, and advocate for gender equality and empowerment in rural areas.

Rural women make significant contributions to agriculture, food security, healthcare, education, environmental preservation, and community development. They often face multiple challenges, including limited access to land, resources, education, healthcare, and decision-making processes. The International Day of Rural Women seeks to address these challenges and promote their rights, well-being, and inclusion.

The day provides an opportunity to raise awareness about the specific issues faced by rural women, such as poverty, inequality, lack of infrastructure, and discrimination. It also emphasizes the importance of empowering rural women by providing them with access to education, healthcare, resources, and opportunities for leadership and economic participation.

Various organizations, governments, NGOs, and communities observe this day by organizing events, workshops, seminars, and campaigns that focus on empowering rural women, advocating for policy changes, and celebrating their achievements. These activities aim to amplify the voices of rural women, recognize their contributions, and foster supportive environments where they can thrive.

On 18-10-2021, a guest lecture is given by Dr. B.Madhavi, Department of Environmental Science, Dr.Lankapalli Bullayya College on the topic named "Women and the Environment". It was organized by Women Empowerment Cell in coordination with Electrical and Electronics Engineering.

About the Institute:

Dr. Lankapalli Bullayya College of Engineering encourages and promotes education and keeps its focus on empowerment and their personality development with which they can face the challenges of modern world. The broad objective of the institution is to provide the right opportunities to students for learning the higher skills in new technologies and building their extraordinary careers in industry and research organizations.

Acclaimed by the student community as an outstanding women engineering college in the smart city Visakhapatnam, Andhra Pradesh, Dr. Lankapalli Bullayya College of Engineering (for women), was established by The Society for Collegiate Education in 2010 with the objective to produce technologists and scientists who would engage in research, design and development to help building the nation. Our Campus is ideally located in the heart of the city on 10 acre land.

The curriculum places emphasis on basic topics in engineering sciences, design and experimental methods. The College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

About Rotaract Club:

Rotaract clubs bring together people ages 18 and older to exchange ideas with leaders in the community, develop leadership and professional skills, and have fun through service. In communities worldwide, Rotary and Rotaract members work side by side to take action through service.

Mission of the club is to provide service to others, promote integrity, and advance world understanding, goodwill, and peace through our fellowship of business, professional, and community leaders.

Wishes
International
Women's Day
* A VISIT TO PAPA HOME
FOR GIRLS
* interaction with girls
* Fun activities and games

About the Event:

International Womens day is celebrated globally in order to acknowledge the important roles that women play in the family, society, country and on a global stage. The focal point of this event is to raise awareness among the general public and sensitizing them towards providing a more co-operative, healthy and supportive environment where they too can explore , work and utilize opportunities for growth and development. It is in this regard that the Rotoract Club of the college decided to visit the PAPA HOME for GIRLS at Visakhapatnam, so that these girls who belong to the marginalized section of the society may be provided a ray of hope that they have somebody to fall back on, that there is still a section of the society that encourages, supports and nurtures them in all ways possible. Events such as these provide the Rotoractors with an entirely alternate world view that differs from their privileged position.

The club members had a fun and informative session at PAPA Homes. The team members interacted with the girl students and addressed various problems and shared a few tips to deal with cramps using YOGA asanas.The members distributed stationery kits to them and also taught them basic self-defence techniques.

Photo1. Members of Rotaract interacting with the Students of PAPA home.

Photo2. Yoga asanas are being taught to students of PAPA HOME by Rotaract club members.

About the Institute:

Dr. Lankapalli Bullayya College of Engineering encourages and promotes education and keeps its focus on empowerment and their personality development with which they can face the challenges of modern world. The broad objective of the institution is to provide the right opportunities to students for learning the higher skills in new technologies and building their extraordinary careers in industry and research organizations.

Acclaimed by the student community as an outstanding women engineering college in the smart city Visakhapatnam, Andhra Pradesh, Dr. Lankapalli Bullayya College of Engineering (for women), was established by The Society for Collegiate Education in 2010 which later evolved into fully fledged Engineering College. The College was started with the objective to produce technologists and scientists who would engage in research, design and development to help building the nation. Our Campus is ideally located in the heart of the city on 10 acre land.

The curriculum places emphasis on basic topics in engineering sciences, design and experimental methods. The College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

International Day of Women and Girls in Science
(11-02-2021)

Theme of the Event:

The International Day of Women and Girls in Science is observed annually on February 11th. It was established by the United Nations General Assembly to recognize the critical role women and girls play in science and technology and to promote their full and equal participation in these fields.

This day serves to highlight the achievements of women and girls in science, technology, engineering, and mathematics (STEM), while also raising awareness about the challenges they face. It aims to break down barriers and stereotypes that hinder their participation in these fields.

The day emphasizes the importance of providing equal opportunities for women and girls in scientific education and careers. It seeks to encourage girls to pursue STEM education, support women in their scientific careers, and promote their involvement in research, innovation, and decision-making processes related to science and technology.

On this day, a guest lecture is given by Smt. I.Hymavathi, Assistant Professor, Department of Computer Science, Dr. Lankapalli Bullayya College on the topic named "Women's role in Science and Technology". It was organized by Women Empowerment Cell in coordination with Department of Civil Engineering.

Webinar on Gender Sensitization for Societal Change

(20-01-2021)

Chief Guest: Dr.Lakshmi Priya,
Associate Professor,
Law College, Dehradun.

Convenor: Dr.D.Madhavi,
Convenor, Women Empowerment Cell,
Dr.Lankapalli Bullayya College of Engineering.

Co-ordinator: Ms.S.Varalakshmi
Asst.Professor, Dept. of EEE,
Dr.Lankapalli Bullayya College of Engineering.

In order to inspire the Women Students and Faculty Members to courageously pursue their chosen goals with focus and determination, the Women Empowerment Cell of Dr.Lankapalli Bullayya College of Engineering organized a National Webinar titled, "Webinar on Gender Sensitization for Societal Change" on 20-01-2021. Ms.S.Varalakshmi , Asst.Professor Dept of EEE introduced the Chief Guest Dr Lakshmi Priya Vinjamuri, Associate Professor, Law College of Dehradun. Dr Lakshmi Priya advised the Students and Women Faculty Members regarding the various Indian laws granting protection to the women. She also explained through various case studies the challenges faced by women and the need to sensitize the society with respect to empowering the Women and protecting their rights. e-Certificates were distributed to the participants. The participants felt encouraged and inspired to learn about the need for Gender Sensitization and the impact it has on creating a balanced society.

International day for the abolition of slavery

(2nd December,2020)

Theme of the Event:

The day marks the date of the adoption, by the General Assembly, of the United Nations Convention for the Suppression of the Traffic in Persons and of the Exploitation of the Prostitution of Others. International Day for the Abolition of Slavery was observed on 2nd December every year. The Rotaract Club members made posters and slogans and pinned them on the college notice board to spread the awareness. Students with their creativity prepared posters , slogans and play cards and displayed in the college.

International Day for Rural Women
(15-10-2020)

Theme of the Event:

The International Day of Rural Women is observed on October 15th every year. It's a day designated by the United Nations to recognize the critical role that rural women play in enhancing agricultural and rural development, improving food security, and eradicating rural poverty.

The day aims to highlight the contributions of rural women to their communities and economies. It acknowledges their role in agriculture, food production, and natural resource management. Rural women often face multiple challenges, including limited access to land, healthcare, education, and financial resources. This day serves as an opportunity to address these challenges and advocate for gender equality and empowerment of rural women.

Various organizations, governments, and communities around the world use this day to organize events, workshops, and campaigns focusing on the needs and rights of rural women.

On this day, a guest lecture is given by Dr. P.Surekha, Head of the Department, Department of Zoology, Dr. Lankapalli Bullayya College on the topic named " Building Rural Women's Resilience in the Wake Of Covid-19 Pandemic". It was organized by Women Empowerment Cell in coordination with Department of Computer Science and Engineering.

Dr.Lankapalli Bullayya College of Engineering encourages and promotes education and keeps its focus on empowerment and their personality development with which they can face the challenges of modern world. The broad objective of the institution is to provide the right opportunities to students for learning the higher skills in new technologies and building their extraordinary careers in industry and research organizations.

Acclaimed by the student community as an outstanding women engineering college in the smart city Visakhapatnam, Andhra Pradesh, Dr.Lankapalli Bullayya College of Engineering (for women), was established by The Society for Collegiate Education in 2010 with the objective to produce technologists and scientists who would engage in research, design and development to help building the nation. Our Campus is ideally located in the heart of the city on 10 acre land.

The curriculum places emphasis on basic topics in engineering sciences, design and experimental methods. The College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

INTERNATIONAL WOMEN'S DAY CELEBRATIONS 2020
(07-03-2020)

Theme of the Event:

International Women's Day 2020

International Women's Day serves as a reminder of the progress made in advancing women's rights and equality and the work that remains to be done. It also provides an opportunity for people to celebrate the achievements of women in various fields and to acknowledge their contributions to society. It continues to be a catalyst for change and a platform for advocacy on issues related to women's rights and gender equality.

Women's Day Celebrations were held at Dr Lankapalli Bullayya College of Engineering for Women on 7th March 2020. The Chief Guest of the event Ms Lakshmi Mukkavilli, CEO, PATRA India encouraged to think differently and motivated to be an initiator instead of following the band wagon. The Guest of Honor -Dr G Madhu Kumar, Secretary & Correspondent, Dr. Lankapalli Bullayya Colleges advised women to empower themselves without waiting for any external agency to help them. The President of the event, Dr D. Deepak Chowdary, Principal, Dr.Lankapalli Bullayya College of Engineering for women lauded the women as they have been prospering equally well along with men and competing with men in all fields. Various events like Power Talk, Wall painting, puzzles, stalls for food, games and craft, haunted house were also conducted by members of the Women Empowerment Cell.

Schedule of the Program:

Venue: Block 7 Seminar Hall in Dr.Lankapalli Bullayya College of Engineering

About the Institute:

Dr.Lankapalli Bullayya College of Engineering encourages and promotes education and keeps its focus on empowerment and their personality development with which they can face the challenges of modern world. The broad objective of the institution is to provide the right opportunities to students for learning the higher skills in new technologies and building their extraordinary careers in industry and research organizations.

Acclaimed by the student community as an outstanding women engineering college in the smart city Visakhapatnam, Andhra Pradesh, Dr.Lankapalli Bullayya College of Engineering , was established by The Society for Collegiate Education in 2010 with the objective to produce technologists and scientists who would engage in research, design and development to help building the nation. Our Campus is ideally located in the heart of the city on 10 acre land.

The curriculum places emphasis on basic topics in engineering sciences, design and experimental methods. The College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

Theme of the Event:

Concern regarding the safety and security of the girl child is a major factor which if unchecked may become a major hindrance preventing women in general from utilizing opportunities for development. This situation can be improved by empowering the women through the tools of education, employment and welfare schemes. Despite these measures being taken up by the government and other non-governmental agencies working in the area of women empowerment, women still feel the need for enhanced protection and security. For this to be achieved measures have to be taken that assure them of their enhanced capability to defend themselves in any situation physically and prevent them from being harmed or overpowered. It is in this context that training women and girl children in the areas of Self Defense becomes relevant, important and need of the hour.

Dr.Lankapalli Bullayya College of Engineering(for Women).

About the Program: Training Programme on Self Defense Skills for Women

Date and Venue: 05-03-2020
Block 7, Seminar Hall,
Dr.Lankapalli Bullayya College of Engineering(for Women)

ABOUT THE PROGRAM :

NSS unit of Dr.Lankapalli Bullayya College of Engineering (for Women) observed that Self-defense is an important life skill that can help girls be more aware of their surroundings and prepare them for any unexpected situation. The organizers of the event felt that It can also instill self-confidence and thereby promote education and overall development.

During this event the participants were trained in the following Self Defense moves including, Palm strike, Elbow strike, Knee strike, Groin kick, Heel palm strike, How to escape from a 'bear hug attack', How to escape from a 'choke hold', and How to escape from a 'hair grab'. The participants of the event were also enlightened about the necessity to maintain healthy boundaries, even with people whom they regularly knew.

This event helped to raise awareness about the importance of self-defense and advocated policies and practices that promote safety and security in the community especially among girl students. This can involve organizing events, campaigns, and other activities to engage the wider community.

International Day of Women and Girls in Science
(11-02-2020)

Theme of the Event:

The International Day of Women and Girls in Science is observed annually on February 11th. This day aims to recognize the critical role that women and girls play in science and technology and to promote full and equal access to and participation in science for women and girls.

The United Nations declared this day to highlight the importance of gender equality and the empowerment of women and girls in the field of science. It serves as a platform to encourage more women and girls to pursue careers in science, technology, engineering, and mathematics (STEM) fields, where they are traditionally underrepresented.

This day is an opportunity to celebrate the achievements of women and girls in science, showcase their contributions to various scientific disciplines, and emphasize the need for greater inclusion and opportunities for women and girls pursuing careers in STEM.

On this day a guest lecture is given by Dr. R.Serisha Latha, Department of Psychology, Dr. Lankapalli Bullayya College on the topic named "Education Psychology". It was organized by Women Empowerment Cell in coordination with Electronics and Communication Engineering.

National Girl Child Day
(24-01-2020)

Theme of the Event:

National Girl Child Day is celebrated in India on January 24th every year. It was initiated in 2008 by the Ministry of Women and Child Development in an effort to raise awareness about the inequalities and challenges faced by girls in Indian society and to promote their rights and empowerment.

The day aims to highlight the importance of ensuring equal opportunities, rights, and privileges for girls, emphasizing the need for their education, health, nutrition, and safety. It serves as a platform to address issues such as gender-based discrimination, inequality in access to education, child marriage, female foeticide, and other social prejudices that hinder the progress and well-being of girls in India.

On National Girl Child Day, various events, seminars, workshops, and campaigns are organized across the country to advocate for the rights of girls, promote gender equality, and create awareness about the importance of nurturing and empowering girls to fulfill their potential. The day also celebrates the achievements and successes of girls and aims to inspire them to dream big and pursue their aspirations without limitations.

On this day, a guest lecture is given by Dr. Naga Padma Department of Commerce, Dr. Lankapalli Bullayya College on the topic named "Feminism and Social Justice". It was organized by Women Empowerment Cell in coordination with Department of Electronics and Communication Engineering.

About the Institute:

Dr. Lankapalli Bullayya College of Engineering for Women (DLBCEW) is a private college located in Visakhapatnam, Andhra Pradesh, India. It was established in 2008 and is affiliated with Jawaharlal Nehru Technological University (JNTU), Kakinada. The college is named after Dr. Lankapalli Bullayya, a renowned educationist and social worker who played a significant role in the development of the Andhra region.

DLBCEW is dedicated to providing high-quality technical education to women and promoting gender equality in the field of engineering. The college offers undergraduate courses in various disciplines of engineering, including Computer Science and Engineering, Electronics and Communication Engineering, Electrical and Electronics Engineering, and Information Technology. The curriculum is designed to equip students with the skills and knowledge required to meet the challenges of the rapidly changing technological landscape.

DLBCEW has a well-equipped campus with modern facilities such as well-equipped labs, a library, hostel accommodation, and a sports complex. The faculty members are highly qualified and experienced, and they strive to provide a supportive and stimulating learning environment for the students. The college also provides opportunities for students to participate in various extracurricular activities, such as cultural events, sports, and community service programs.

DLBCEW is committed to empowering women through education and creating a pipeline of skilled and confident women engineers who can contribute to the development of the country. In summary, DLBCEW is a leading engineering college for women in Visakhapatnam that provides high-quality technical education and promotes gender equality in the field of engineering.

About the CII IWN:

The Confederation of Indian Industry (CII) is a non-governmental, non-profit organization that aims to create and sustain an environment conducive to the growth of industry in India. As part of its efforts to promote gender equality and empower women in the workforce, CII has established the Indian Women Network (IWN), a national initiative that brings together women professionals from various industries and provides them with a platform to network, share knowledge, and collaborate.

The IWN has a presence in various states across India, including Andhra Pradesh. The CII IWN Andhra Pradesh chapter was established to promote gender diversity and inclusivity in the state's industrial and business sectors. It aims to create a supportive environment for women professionals to realize their potential, develop leadership skills, and drive change.

The CII IWN Andhra Pradesh chapter organizes various initiatives and events to empower women professionals in the state. These include conferences, workshops, training programs, and mentoring sessions. The chapter also works closely with the government, industry bodies, and other stakeholders to advocate for policies and practices that promote gender equality and women's empowerment in the workplace.

Western ideas on Gender diversity

(18-10-2019)

Theme of the Event:

The impact of Western ideas on gender diversity has been significant and far-reaching. Western societies have played a crucial role in shaping the discourse around gender, sexuality, and identity, which has had a profound effect on how these issues are understood and addressed around the world. Western ideas have contributed to the recognition of the existence of gender diversity and have helped to break down traditional binary gender norms. Western societies have been at the forefront of the movement towards gender equality, which has led to important legal and social changes, including equal pay, anti-discrimination laws, and LGBTQ+ rights.

Western ideas have also played a crucial role in the development of gender studies as an academic discipline. Feminist scholarship and queer theory have challenged traditional gender roles and provided new insights into the complex ways in which gender operates in society.

However, it is important to acknowledge that Western ideas on gender diversity are not universally applicable or accepted. Gender norms and expectations vary across cultures and societies, and it is important to take into account the diverse perspectives and experiences of people from different backgrounds.

Prof D. Madhavi, Head of the Department- CSE, Dr.K. Anuradha and Dr. G. Vamsi Krishna, faculty, Department of CSE, and Dr. V.Radha Devi, Associate Professor-English, Dr. Lankapalli Bullayya College of Engineering, Dr. U. Padma Mohan, Assistant Dean-Projects , Dr. Vidya Rajagopalan, Head of the Department of PG-Commerce, Ms. R. Anjana, Head of the Department of Management Studies, Dr.Lankapalli Bullayya PG Centre, and Dr.K.Jayashri Shetty, Senior Trainer, Skill Development Centre represented the college in the CII-IWN Meet held at Patra India Limited on the 18" of October 2019. Ms. Lakshmi Mukavilli, Managing Director- Patra India Limited, Visakhapatnam, chaired the event. A very useful and interactive session on Gender Diversity and Life Skills was delivered jointly by Mr. John Simpson, Chief Executive Officer and Ms. Elizabeth Mc Cormick, Senior Director, Patra Corporation, United States of America. Ms. Jayasree Ganesan, Founder and CEO of i-Beam Academy addressed the women delegates on the topics "Being Yourself" and "Ikigai" (a Japanese term for a Sense of Purpose). A lot of fun learning activities made the evening a very memorable one for all delegates.

About the Institute:

Dr.Lankapalli Bullayya College of Engineering for Women encourages and promotes education and keeps its focus on empowerment and their personality development with which they can face the challenges of modern world. The broad objective of the institution is to provide the right opportunities to students for learning the higher skills in new technologies and building their extraordinary careers in industry and research organizations.

Acclaimed by the student community as an outstanding women engineering college in the smart city Visakhapatnam, Andhra Pradesh, Dr.Lankapalli Bullayya College of Engineering for women, was established by The Society for Collegiate Education in 2010 with the objective to produce technologists and scientists who would engage in research, design and development to help building the nation. Our Campus is ideally located in the heart of the city on 10 acre land.

The curriculum places emphasis on basic topics in engineering sciences, design and experimental methods. The College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

Theme of the Event:

International Women's Day was celebrated on 8th March 2019 in the campus with great fervor and joy with all the women teaching and non-teaching staff participating enthusiastically in it. Ms.P.Madhuree, IRS was the Chief Guest for this event. Secretary and Correspondent of the college, Dr. G. Madhu Kumar, Special Invitee, initiated the festive mood with his humorous and inspiring speech, followed by special messages from Dr. K.Satyanarayana, Director-Academics and Campus Administration and Prof K.V.S. Pattnaik, Director- Research.

Having registered as Members of the Computer Society of India, Computer Science Engineering students participated in large numbers. A Projects Expo held in the campus helped them to display and showcase their projects. Ms.P.Madhuree and Dr. K.Satyanarayana encouraged students by visiting the different classrooms and reviewing their projects. As Jury Members, Heads of Departments motivated students by selecting Best Projects and gave away prizes to them. Ms. O. Satya Prabha, Faculty, MBA department talked about clinical depression in women and her own experience in combating it. She added that majority of women in India experience clinical depression Activities like appreciating oneself, thinking positively, helping others without expectations, taking up challenging activities helps in dealing with the problem. Ms. Rupashree, also from the MBA department, spoke about how a woman's choices are limited in society even today and how it is important for her to break free in order to make her mark in society.

Song and dance performances marked the day with participation from all departments. Many fun events and games were conducted for the ladies. Foot tapping music, poetry recital, bingo, lucky dip, and dance, interspersed with games added to the festive mood. Women's day should not be restricted to just one day of festivity in a year. Being born as a woman is by itself a celebration for life.

International Day of Women and Girls in Science
(11-02-2019)

Theme of the Event:

The International Day of Women and Girls in Science, celebrated annually on February 11th, aims to recognize the critical role women and girls play in science and technology while promoting their full and equal participation in these fields.

It was established by the United Nations General Assembly in December 2015 to address the gender gap in science, technology, engineering, and mathematics (STEM) fields. The day serves as a reminder of the importance of empowering women and girls in scientific fields and encourages efforts to ensure their access, participation, and recognition in these disciplines.

The day highlights the achievements of women scientists, engineers, researchers, and innovators globally, acknowledging their contributions to scientific advancements, discoveries, and technological innovations. It also seeks to inspire and encourage young girls and women to pursue careers in STEM by showcasing role models and organizing events, workshops, seminars, and educational activities worldwide.

Several organizations, educational institutions, governments, and NGOs actively participate in this celebration, organizing events that promote gender equality in STEM fields, provide mentorship, and create opportunities for women and girls to explore and excel in science-related careers.

On this day a guest lecture is given by Dr. P.Kiran Kumari, Department of Environmental Science, Dr. Lankapalli Bullayya College on the topic named "Women need Science and Science need Women". It was organized by Women Empowerment Cell in coordination with Computer Science and Engineering.

About the Institute:

Dr. Lankapalli Bullayya College of Engineering for Women encourages and promotes education and keeps its focus on empowerment and their personality development with which they can face the challenges of modern world. The broad objective of the institution is to provide the right opportunities to students for learning the higher skills in new technologies and building their extraordinary careers in industry and research organizations.

Acclaimed by the student community as an outstanding women engineering college in the smart city Visakhapatnam, Andhra Pradesh, Dr.Lankapalli Bullayya College of Engineering (for women), was established by The Society for Collegiate Education in 2010 with the objective to produce technologists and scientists who would engage in research, design and development to help building the nation. Our Campus is ideally located in the heart of the city on 10 acre land.

The curriculum places emphasis on basic topics in engineering sciences, design and experimental methods. The College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

About the Event:

The CII-Indian Women Network (IWN) Visakhapatnam Chapter organized on Awareness Session on "Impact of Me Too" Posh Perspectives at Block 2 Seminar Hall in Dr.Lankapalli Bullayya College on 24th January 2019. The Guest Speakers were Dr.Lakshmi Priya, Convenor, Policy & Advocacy, Indian Women Network (AP) & Director, Legal Labs LLP and Mrs.T.Vasudha, Co-Convenor, Policy & Advocacy, Indian Women Network (AP) and Freelance Consultant, Brandix. The students of III CSE participated in the session in good numbers. Ms.Lakshmi Mukkavalli, Chairperson, CII- IWN, Andhra Pradesh chapter, M.D.Patra, India and Member of the Governing Body, Dr.Lankapalli Bullayya College of Engineering for Women presented the opening remarks. Mr.S.Rajeswari, Dy.Director, CII was also present. The guest speakers enlightened the students on presentation, protection and redressal of sexual harassment at work place. Dr.V.Radha Devi, Ms. Ch.Lavanya Ratna, D.Bhujanga Rao, and Mr.M.Ravi Kumar of the Skill Development Centre coordinated the session.
